CONTENTS OF THE ISSUE

NEWS - Anchored header in the log book

The header in the log book is newly anchored.
When scrolling, the columns remain still visible.

We also modified the Absence tool
(Tools/Dispatcher tools/Drivers-absence).

NEWS – Checking data deadlines – vehicle scrapping filter

Added a checkbox in statistics for Check data closure to filter scraped vehicles for 3 months back.

NEWS – Log book – new improvements

The log book has been extended with the following modifications:

- **Added checkbox "mark all", which marks all trips shown in the log book (limited to 31 days, if the period would be longer, the checkbox will not be displayed).**

NEWS – Log book – new improvements

- **Added the item "To be paid by the driver" to the log book.**

To enable this functionality, it is necessary to have in Settings/Company checkbox "Show for payment to the driver" in the section Calculate private km for payment to the driver.

The item "To be paid by driver" is only displayed for the default driver who has driven some private kilometers in the period.
Only positive amounts are displayed, i.e. to be paid by driver is greater than 0.
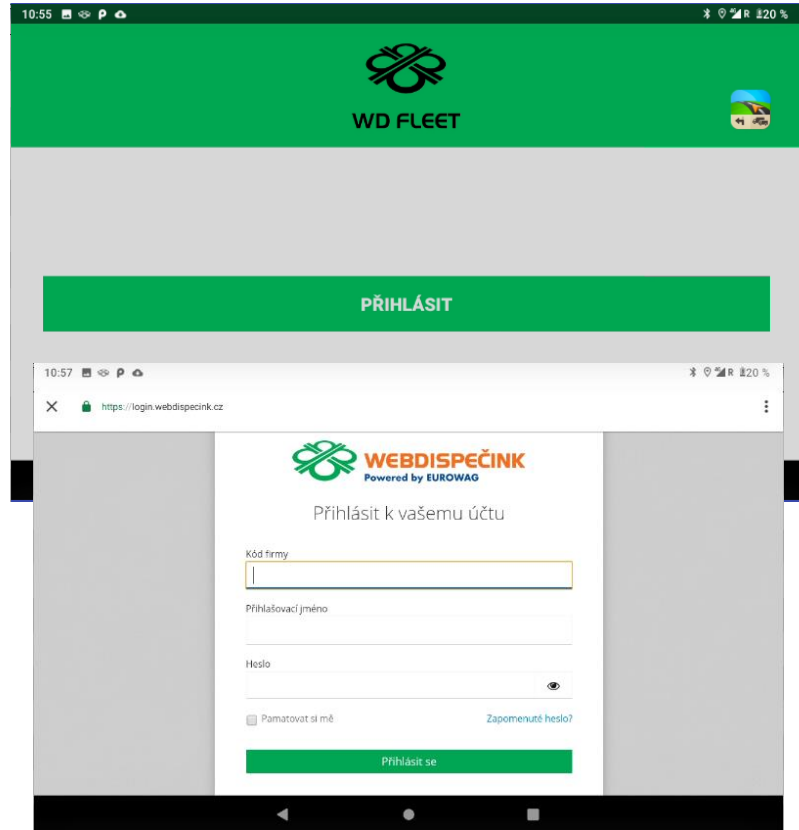

NEWS – new version 1.8.0 of WD Fleet app

We have prepared for you New version 1.8.0 of the WD Fleet app, and we've made some exciting changes and improvements:

1. **Change login screen (SSO)**
As of 17.6.2024, changes have been made to the login in the Webdispecink web interface and these changes also affect users of the WD Fleet mobile app.

- Login details and their updates are unchanged and remain the same.
- After updating to the new version, users will remain logged in to the app.
- Changing a mobile app user's name or password may cause the user to be logged out and require new login credentials

7

NEWS – new version 1.8.0 of WD Fleet app

2. Integration of new libraries version 22.4.9

- **We have updated the navigation software to the latest version of Sygic 22.4.9 for better and more accurate navigation.**

3. Portrait mode (display Navigation/Active route in portrait view)

- **The app now supports portrait view, making navigation much easier to use and clearer.**
- **As in the current landscape view mode, you can switch all three portrait view options using the icon.**
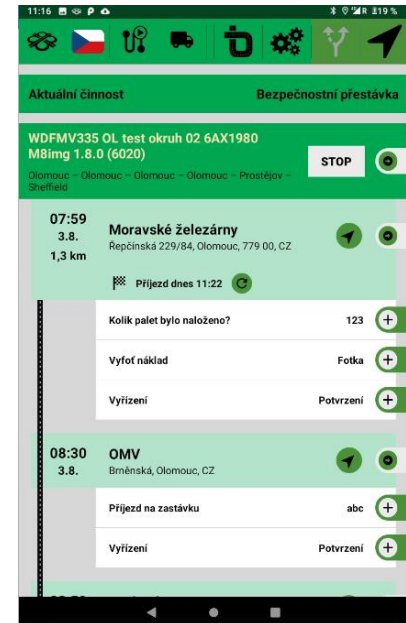

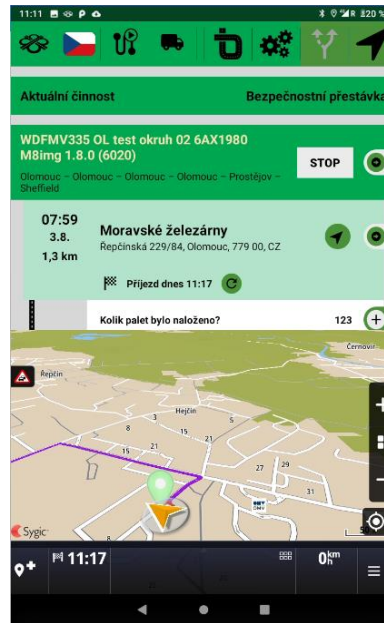

NEWS – new version 1.8.0 of WD Fleet app

4. Perfect Drive – parameter display Idle longer than 2 minutes

- As part of Perfect drive, the driver can now monitor a new parameter - Idling longer than 2 minutes - driver behavior leading to improved ratings will help reduce fuel consumption and emissions.

NEWS – new version 1.8.0 of WD Fleet app

5. **Bug fixes and application stability improvements**
- We have made several bug fixes and optimizations to increase the stability and reliability of the application.

6. **New version of WD Fleet Updater**
- For the image tablets supplied by EUROWAG, we had to upgrade the MicroG service, which provides new messages or shipment notifications for drivers. If you do not upgrade the MicroG service, new messages and route notifications will stop coming.

- As part of the upgrade to the new version for image tablets, you will need to upgrade gradually.

Updater to version 1.2.0 (505) or higher

WD Fleet to version 1.80 (6020) or higher

MicroG to version 0.3.1.240913 (2409130002)

NEWS – new version 1.8.0 of WD Fleet app

**The update can be run
On WIFI and also on
mobile data. Just open
the WD Fleet Updater, swipe
down from the top and
click on the App is running
in background – the updater
should then alert you to the
possibility of downloading
all updates.**

11
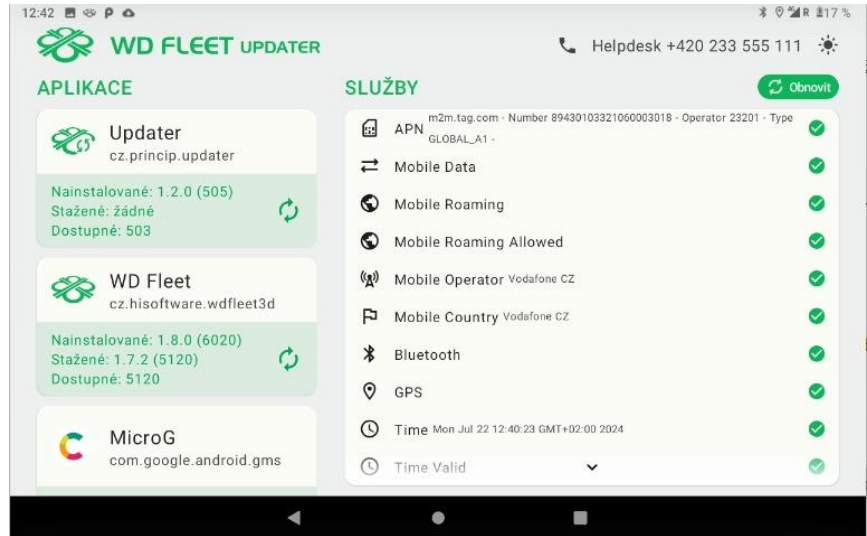

END

We hope that you have found useful information in the articles in this issue of the magazine that will make working with your fleet even easier.

Thank you for your trust.
